

I've got to wait another 8 years...
You're joking ???

Hamilton council is considering adopting a 100% smoke-free bylaw
that would not take full effect until the year 2010.

This will expose Hamilton residents to
dangerous second-hand smoke for another 8 years!

(On average two people die in Hamilton every day from the effects of smoking...
and an estimated 50 non-smokers die
from diseases related to second-hand smoke in Hamilton every year.)

**CALL THE MAYOR'S OFFICE AND
YOUR CITY COUNCILLOR NOW at 905-546-CITY (2489)
to voice your objection to this delay
...your call could save a life.**
