

# // On average two people die in Hamilton every day from the effects of smoking. //

"It is also estimated that FIFTY NON-SMOKERS die from diseases related to SECOND-HAND SMOKE in Hamilton every year."

- City of Hamilton Social and Public Health Services Department. Health Issues Report 2000

**The following members of the Hamilton Medical Community respectfully request that Hamilton City Council follow the lead of other progressive health-conscious Ontario communities such as Ottawa, Waterloo, and Peterborough and pass a by-law that eliminates all indoor smoking in public places.**
